FOREWORD

We are doing our part to stimulate business activity by passing every price advantage to our customers. And this is not being done at a sacrifice in quality and at no time were we able to offer a finer lot of bulbs of superior quality. All through this spring catalog you will find quotations below those we have been able to make for many years, and in a great number of the items, the prices are the lowest ever quoted.

We would like this catalog to be the medium through which we can become better acquainted, as it is naturally impossible in many cases to have personal contact which we very much regret, as we would like to have you visit with us our various farms and point out the advantages you have in dealing with us, as growers of the stock we supply. All of our superintendents are experts in their particular field, and the many new items we are constantly introducing would be of enormous interest to you.

We are constantly broadening our line and thus maintaining our position as the foremost suppliers of the most complete line of bulbs and kindred items in the country.

I wish to take this opportunity to extend to you my sincere appreciation for your patronage in the past, and hope that we may continue to enjoy your goodwill.. If you have not received bulbs from us in the past I would appreciate an opportunity to serve you. I am sure that you will find our dealings most satisfactory, and given an opportunity to supply you with quality stock, you will also become a life-long customer of our firm.

Sincerely yours,

Herman Rynveld

European Stations: Holland, France • Canadian Office: Toronto, Canada 149-155 West 24th Street, New York

BUY RYNVELD'S BULBS AND BE SURE OF QUALITY, SIZE, HEALTH GUARANTEED TO GIVE SATISFACTION

Terms

5% off for cash with order.

2% off for payment within 10 days.

All bills payable net 60 days.

Unless credit is established with us please give references and allow us sufficient time for checking.

All quotations herein are for shipment F. O. B. New York.

For the convenience of our Southern customers we can make shipment of Florida grown stock direct from growing station at Jacksonville, Fla.

Prices quoted herein are subject in all cases to maintenance of present tariff schedule on the respective item and any change made therein before delivery automatically cancels the within quoted prices.

Display Cards for Your Counter Trade

To those who retail bulbs we offer free of charge display card reproductions in natural colors. It is important that you have these as they are of considerable assistance in increasing sales and obtaining new customers.

SERVICE

We maintain offices and warehouses at New York and California and carry a complete line of Spring bulbs in stock for our customers' requirements.

Wire orders are filled the same day as received by us. All others within 48 hours of receipt. Your inquiries are welcomed and we are pleased to make suggestions as to culture or selection when requested.

We have a representative in your territory. Let us have him call on you.

The House of

F. RYNVELD & SONS, Incorporated

General Offices and Warehouse

149-155 West 24th Street, New York

We Guarantee

That all bulbs leave our farm or warehouse in good condition, packed in boxes sufficiently strong and substantially secure to insure delivery in good order but we do not assume risks in transit.

That all stock is true to name as represented.

That all stock is inspected and found to be sound and free from disease when shipped.

We Do Not Guarantee

Productivity—The actual growing of flowers is subject to many conditions over which we exercise no control. We allow five days after delivery for inspection by the purchaser and cannot entertain complaints made after the expiration of this period. All requests for adjustment must be made in writing to our main office at 149-155 West 24th Street, New York City, and we assume no liability for those made verbally to our salesmen or in any other way.

PRICES

Allow us to sound a word of warning to those who contemplate placing orders based upon competitive quotations. During a period of declining prices such as we have had recently, competition has developed into a frenzy of price cutting with the inevitable result that quality is sacrificed for the sake of price. Skimping on prices when purchasing bulbs invariably results in depreciated returns at blooming time.

We maintain that **quality for quality** our prices are lower than those quoted by others not interested in maintaining the high standard which we have set up.

SQUARE DEAL

To those who have dealt with us for years we need not repeat our policy of square dealing. To our new customers we desire to say that at all times we are anxious to adjust differences. Occasionally, mistakes occur and we receive requests for adjustments. Many are not our fault but our policy of "a square deal for the Florist" will not allow us to overlook them.

Rynveld's Superior Gladiolus

Our commanding position among Gladiolus suppliers has been brought about mainly by developing stocks of newer varieties after their value in a commercial way has been demonstrated. We have also been aware of the definite limit which regulates the prices that growers can profitably afford to pay.

Gladiolus produced on our Long Island farms, where growing conditions are ideal, develop into high-crown, healthy, thrip-free bulbs. The quality of the bulbs is the best we have ever had. We especially call your attention to the newer commercial varieties which are now obtainable at much reduced prices.

24 COMMERCIAL LEADERS AT PRICES YOU CAN AFFORD

	FIRST SIZE Per 100 1000		SECOND SIZE Per 100 1000

King Midas—Clear yellow. Large trusses. Very good. 4 ft.

Per 100 \$3.00 Per 1000 \$27.50

Richard Wallace—Canary yellow. Very floriferous. One of the best yellows. 4 ft.

Per 100 \$2.75 Per 1000 \$25.00

Yellow King Humbert—Like King Humbert in habit of growth and flowering, produces golden yellow flowers blotched with red. 4 ft.

Per 100 \$3.00 Per 1000 \$27.50

Dahlias—Latest Introductions and Outstanding Novelties—Dahlias

FOR THE GENERAL LIST OF COMMERCIAL VARIETIES SEE FOLLOWING PAGES

While Dahlias have long been garden favorites it is only within the past few years that they have moved into a position of prominence among our most important seasonal cutflowers. This past season saw them recognized as never before and several times they completely dominated several of our big wholesale markets and attained prices that were never heard of before and which made many Chrysanthemum growers sit up and take notice. Dahlias are now definitely established as among our great outdoor bulbous cutflower crops.

The big contributing factor to this new popularity is undoubtedly the fine list of new varieties that has been introduced in recent years but

their distribution out of the hands of a few specialists into many thousands of commercial cut-flower growers all over the country has also aided materially.

Several years ago we undertook the marketing of a select list of established commercial kinds and our large volume enabled us to sell them at lower prices than which they had been generally offered. By rigidly adhering to our policy of limiting the list to those kinds which had actually established themselves in the big markets our sales developed rapidly. This year we have added more varieties and recent introductions from abroad and they all possess the same exacting qualities.

KEY TO ABBREVIATIONS

(C) Cactus—(S. C.) Semi Cactus. (F. D.) Formal Decorative

OUR FALL CATALOG

- Will be ready about September 1st.
- If you are not on our mailing list, be sure to ask for a copy. New items of special interest are now being prepared.

Giant Flowering Hybrid Amaryllis

Few flowers rival the Amaryllis in grandeur, range of color, or simplicity of culture and are considered one of the most popular items in the flower bulb line. We have probably the most outstanding collection of Amaryllis at our Florida farm, grown from a selection of bulbs produced by renowned specialists all over the world.

GIANT HYBRID AMARYLLIS

A good strain producing large size flowers, but only obtainable in mixed colors.

Per Doz. Per 100

2-2½ inches in diameter	\$1.75	\$13.00
2½ to 3 inches in diameter	2.25	16.00
3 to 3½ inches in diameter	3.25	25.00

GIANT AMARYLLIS "RYNVELDI STRAIN"

The World's Choicest

A re-selected strain of the largest flowering sorts, in separate colors—white, light pink, dark pink, scarlet, red, salmon.

Per Dozen.....\$7.00 Per 100.....\$50.00

AMARYLLIS EQUESTRE (Barbados Lily)

A free flowering flame red variety. Makes a fine pot plant and is very valuable for outside planting in the South.

Per 100.....\$8.00 Per 1000.....\$70.00

AMARYLLIS HALLII (Lycoris Squamageri)

A hardy Amaryllis. Produces attractive green foliage early in Spring, foliage later dying down and about a month thereafter flower stalks appear, growing 3 feet high with an umbel of large Lily shaped delicate pink flowers shaded with clear blue.

Per Dozen.....\$10.00 Per 100.....\$75.00

AMARYLLIS BELLADONNA (Belladonna Lily)

One of the best of cool house flowering bulbs. Large trumpet shaped flowers, a rosy red color.

Per 100.....\$8.50 Per 1000.....\$80.00

CRINUMS

Large, showy flowering bulbs, closely allied to Amaryllis. Crinums are ornamental summer plants, the strong foliage producing a tropical effect. Excellent for planting in conspicuous positions on terraces or lawns, or in corners to combine with architecture or statuary for summer effect.

CRINUM AMERICANUM

Blooms in Spring and Summer, with creamy white flowers. Is hardy in the South and will often bloom in the Winter.

Per 100.....\$8.50 Per 1000.....\$80.00

Tuberous Rooted Begonias and Gloxinias

With a dependable supply of excellent stock now being produced by one of the leading growers in California, these bulbs are once again assuming their old popularity. In addition to making a very fine pot plant, they are most beautiful for outdoor bedding especially in semi-shaded location. For an early showing it is desirable to start the Bulbs under glass before planting, but they will come along nicely a little later in the season if planted in a dormant state.
